1 Trusscore Wall&CeilingBoard installed horizontally.

2 Outside Corner Square trim is intended to be adhered to Wall&CeilingBoard with a one-part, neutral cure silicone sealant.

NOTES:

- Trusscore Wall&CeilingBoard can be installed with any readily available wood (corrosion-resistant) screws with a minimum head diameter of 3/8".
- Depending on your wall assembly, we recommend different types of screws. For a concrete wall assembly, use 3/16" x 1-1/4" Flathead head screws. Stainless steel screws are only required for highly corrosive or moist environments.
- We recommend using one screw per two square feet of space when installing Trusscore Wall&CeilingBoard
