Trusscore Wall&CeilingBoard / SlatWall in a Garage

Spring has sprung!   It's officially that time of year again, to put away your winter shovels, and replace them with your gardening and lawn tools.

Maintaining home organization doesn't have to be daunting. @Trusscore SlatWall makes organizing your seasonal tools a breeze!

See how professional home organizer, @homorganizing, sets her clients up for success by utilizing the vertical space in their garages, to keep stuff off the floor in and in their proper home.

Instant Organization with Trusscore SlatWall

@Trusscore SlatWall panels are ready to perform as soon as they're installed and can be instantly accessorized with snap-in hooks, baskets, and shelves which quickly click into place.

If you need more options, you can opt to use any standard 3" slatwall accessory you can find. With @Trusscore SlatWall, you can say goodbye to clutter — for good!

Lightweight & Easy to Install

@Trusscore Wall&CeilingBoard and @Trusscore SlatWall panels have a pre-punched screw flange and a tongue-and-groove interlocking system, which makes these products lightweight and easy to install.

@Trusscore products install 4x faster than drywall, making a #TrusscoreTransformation the perfect weekend DIY project.

Installing a complete wall solution has never been easier. Visit us in store to start your @Trusscore project, today!

Strong & Durable

@Trusscore panels are scratch, dent, and damage resistant, and they're built to last in even the busiest areas of your home.

They're also designed to stand up to moisture, water, and mold, making them the perfect storage solution in humid spaces.

Where ever you need a material that's lightweight, easy to install, and durable, @Trusscore has you and your walls, covered.

Stylish Design

Do you have a space that calls for a bright, efficient storage solution?

@Trusscore SlatWall has you and your walls covered — the beautiful, minimalistic design ensures everything has its place while panels are available in two colors to let you play with shapes and patterns to make the space your own.

Trusscore Garages – White and Gray Panels

Did you know, @Trusscore Wall&CeilingBoard and @Trusscore SlatWall is available in in 2 colours: white and gray?

Transform any space by incorporating both colors of Trusscore panels into your design. The trendy gray finish offers softer tones and a warm aesthetic. Not to mention, it contrasts beautifully with their traditional white trim and panels.

For a complete transformation, pair Wall&CeilingBoard with SlatWall to optimize the storage space available in your garage. Learn more here: <https://trusscore.com/products/wall-and-ceilingboard-and-slatwall.html>.

Garage Organization with Trusscore SlatWall

Let's talk about the value of vertical space, especially when it comes to your garage. ↕

Garages are often used as a dumping ground and not for their intended purpose — a safe home for

your vehicles. @Trusscore SlatWall is your ideal solution when it comes to organizing your stuff, vertically. Unlike other traditional storage solutions like cabinets, a SlatWall system tends to be more affordable and features a narrower depth.

With Trusscore SlatWall accessories, from hooks to baskets and shelves, you can get your items off your floor, out of hiding in totes and easily accessible for you to use (and put away once you're done).

@Trusscore SlatWall combines Wall&CeilingBoard for an organized, long-lasting, water-resistant garage for a complete transformation.

Start planning your project or learn more by giving us a call.

Goodbye Drywall, Hello Trusscore

Goodbye drywall, hello Trusscore! Upgrade your garage walls and ceiling with @Trusscore Wall&CeilingBoard and @Trusscore SlatWall for a space that's bright, durable, and easy to maintain.

Come in store to start planning your #dreamgarage today!

Dream Garage

Make your #DreamGarage a reality with @Trusscore!

@Trusscore Wall&CeilingBoard and @Trusscore SlatWall panels combine durability, water resistance, organization, and easy maintenance for the ultimate garage upgrade. 

Ready to tackle your garage? Come visit us in store to learn how to achieve a #TrusscoreTransformation

Garage Upgrade

Why settle for traditional drywall in your garage?

Upgrade your garage walls with @Trusscore Wall&CeilingBoard and @Trusscore SlatWall to enjoy a space that's bright, clean, and organized! @Trusscore panels are the perfect alternative to traditional drywall.

Stop by our store to learn why we're saying goodbye drywall, hello @Trusscore!

DIY Garage Weekend Transformation

Transforming your garage into a functional masterpiece has never been easier! With @Trusscore, you can do it yourself in just one weekend!

@Trusscore Wall&CeilingBoard and @Trusscore SlatWall panels install 4x faster than drywall and can be easily done with just one person—no skilled labor required. 

Give us a call to get your @Trusscore order placed and bring your dream garage to life!

Boathouse Renovation

As a cottage owner, your boathouse deserves the best.

Choose @Trusscore Wall&CeilingBoard and @Trusscore SlatWall to line your boathouse walls for unmatched durability, moisture resistance, and easy maintenance. Spend more time enjoying your time at the lake, not maintaining it.

With @Trusscore, you can protect your boathouse from water damage and create a clean, organized space for all your lake essentials. Invest in quality that lasts—choose Trusscore! 📦🔗

Trusscore Residential Kitchens

When you think about the process of installing drywall on a ceiling, what is the least appealing aspect? The amount of labor, the dust, mess and waste, or the literal pain in your neck? 😞

Typically, builders and end-users quickly opt for traditional drywall on ceilings. However, there are plenty of reasons why drywall might not be the best material for a ceiling, starting with its weight, making it difficult to install.

A better-performing alternative? @Trusscore Wall&CeilingBoard — lightweight ceiling panels that install 4x faster than drywall and are maintenance-free in the long term.

To plan your next home renovation with Trusscore, contact us today!

Bathroom Ceilings

Tired of battling moisture and mold in your bathroom?

Upgrade to @Trusscore Wall&CeilingBoard! @Trusscore panels are 100% waterproof, mold-resistant, and easy to clean, making them the perfect solution for moisture-prone areas.

Say goodbye to constant maintenance and hello to a clean, fresh bathroom with Trusscore! 🛠️💧

Introduction to Trusscore

We are excited to introduce @Trusscore to our product lineup!

@Trusscore is changing how the world builds interior walls and ceilings with sustainable building materials.

Let HGTV host and professional contractor @Bryan Baeumler show you the Trusscore range of products, how they're made and how you can build with Trusscore.

Trusscore PVC-based wall and ceiling panels are easy-to-install and high-performance replacements for traditional drywall and fiber-reinforced plastic (FRP) panels.

To learn more, visit www.trusscore.com.

Customer Story – Garage Reno Rescue

Say goodbye to moldy, crumbling drywall and hello to a dream garage with Trusscore.

Meet Jeff, a homeowner who knew his garage needed a complete overhaul to keep his family safe but also needed a solution to bring calmness to the chaos of his garage.

Does your home also suffer from mold and mildew issues? You're not alone. Around 70% of homes have mold, as the wet, damp areas of structures make for the ideal growing habitat.

Learn how @Trusscore saved the day in this family's garage: <https://trusscore.com/customer-stories/garage-reno-rescue.html>.

Garage Storage and Organization with Trusscore SlatWall

If you're looking for tips for organizing your garage, you're in the right place!

@Bryan Baeumler, HGTV host and professional contractor, shares easy ways to organize your garage that will keep your space in order all year round. His top tip? Install @Trusscore PVC panels with a slat wall organization system that will let you have access to the items you need when you need them.

Trusscore Wall&CeilingBoard and Trusscore SlatWall make your garage function better, no matter the season.

With a quick and easy install, you're able to transform your garage walls into a storage solution that is flexible, water-resistant, and easy to reconfigure all year round.

Water Resistance

With @Trusscore covering your walls, you will have long-lasting protection against moisture and water.

Unlike drywall, all @Trusscore panels are 100% moisture and water-resistant. They shed rather than traps water, which prevents damage and mold growth. With Trusscore, you don't have to worry.

Our panels can withstand the toughest, wet applications such as:

- ◆ Residential garages and laundry rooms

- ◆ Commercial carwashes and kitchen
- ◆ Agriculture buildings

To learn more about this wall and ceiling panel that keeps performing, visit <https://trusscore.com/benefits/moisture-and-water-resistant.html>.

Trusscore vs. Drywall: Speed of Install

When planning for a DIY or renovation project, there are many things to account for. Cost of materials. Labor bills and inconveniences. Maintenance fees. Traditionally these types of projects include drywall, but in this video, HGTV host and professional contractor @Bryan Baeumler compares the installation speed of drywall alternative @Trusscore Wall&CeilingBoard and traditional drywall on a typical 8'x10' room.

As Baeumler explains, Trusscore Wall&CeilingBoard installs four times faster than drywall. There's no taping. No mudding. No sanding. And no painting. Faster installation means far less money spent on installation — projects are completed in a few hours instead of a few days.

Wall&CeilingBoard is strong and durable yet extremely lightweight, meaning it's do-it-yourself friendly – you won't require extra hands for ceiling jobs.

Trusscore is transforming residential and commercial construction and you can purchase yours from Holmes Lumber. These PVC-based wall and ceiling panels are easy-to-install and high-performance replacements for traditional wall coverings like drywall.

To learn more about how Trusscore compares to drywall, visit: <https://trusscore.com/get-started/trusscore-wall-and-ceilingboard-vs-drywall.html>.

Ease of Install

If you're searching for a lightweight panel that's easy to handle and even easier to install, @Trusscore is your answer. ✓

Trusscore Wall&CeilingBoard panels weigh far less than drywall, making them easy to install and reducing the labor needed for installation.

Let's talk about what this means for you (as a homeowner or a contractor):

- Reduced labor and cost of installation — Trusscore installs 4x faster than drywall and weighs 40% less
- Ease of install with interlocking design
- No specialized skills or tools needed

But wait, there's more. To learn more about this drywall alternative that's light in weight and heavy on performance, visit <https://trusscore.com/benefits/lightweight-and-easy-to-install.html>.

Cleanability

@Trusscore is the ultimate wall and ceiling solution to keep your spaces clean with their washable panels. 🧼

Trusscore panels have a smooth, non-porous surface that can easily be wiped down, pressure washed or disinfected. And because all @Trusscore products are stain-resistant and stand up to common cleaning agents, they can handle all the elbow grease you care to throw at them.

Here are some guidelines to help you handle any level of dirt your product encounters:

- ◆ Day-to-Day Cleaning: Use a sponge or soft cloth with a mild cleaning solution
- ◆ Pressure Washing: Use a power washer with less than 3,000 psi standing 4-6 feet away from the wall
- ◆ Disinfecting: Remove any dirt before applying disinfectant and follow instructions on the bottle

Keep your walls looking as good as the day they were installed. Learn more about the cleanability of Trusscore by visiting: <https://trusscore.com/benefits/cleanability.html>

Cost-Effective

“If you’re on the hunt for a cost-effective wall solution, you’re in the right place!” - @BryanBaeumler

When comparing the cost of @Trusscore to competitive products, consider:

- Pricing a project includes more than just material costs — factor in labor, maintenance and care, and the durability and lifespan of the materials you choose.
- Think of time as money. Trusscore installs 4x faster than drywall — and can save you thousands of dollars in labor and maintenance.
- Trusscore is a maintenance-free wall system. You don’t have to worry about painting, wear and tear repairs, or water damage.

@Trusscore panels offer an affordable wall and ceiling solution that looks good and delivers superior performance. Contact us to learn more about saving big on your next project with an easy-to-install and maintenance-free wall solution.
