

## Think outside the box with Trusscore SlatWall

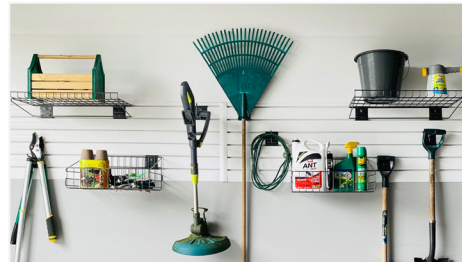

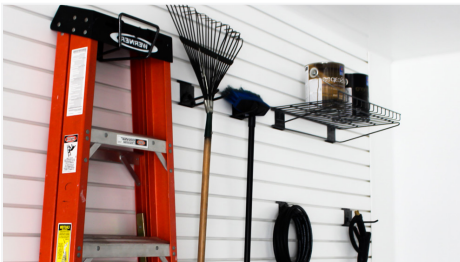

Made from PVC, Trusscore SlatWall is an on-the-wall organization system that's easy to install, built to last, and seamlessly integrates with Trusscore Wall&CeilingBoard to completely transform any space.

Unlike expensive slatwall kits with limited storage capacity, Trusscore SlatWall allows customers to turn as much — or as little — of their wall into storage space. The 8 foot long, interlocking panels can be installed as a track, section, half wall, or a full wall. No matter how big or small storage needs, Trusscore SlatWall has it covered.

### Product Features

- Durable - better scratch, dent and damage resistance than mdf or pegboard
- High-strength storage - supports up to 75 lbs. per square foot
- Easy to install - interlocking panel system with pre-punched flange is quick and simple for DIY or professional installers
- Install as a track, section, half or full wall, or in combination with Trusscore Wall&CeilingBoard
- Accessory flexibility – works with any standard 3" slatwall accessories
- Moisture & water resistant – stands up to water, won't mold or deteriorate
- Hidden fasteners - SlatWall design provides a beautiful finish for an organized space
- Each panel measures 5/8 in. x 7-1/4 in (exposed face 6 in) x 8 ft
- Available in white and gray

### Why Stock Trusscore SlatWall?

- We're generating demand and need dealers like you to sell this desired product
- Cross-sell opportunity – pairs perfectly with Wall&CeilingBoard and offers higher margin and increased sale size
- Differentiate yourself from your competitors – by stocking Trusscore SlatWall, you can offer your customers a completely customizable wall storage solution and the only panel on the market that seamlessly integrates with a wall board
- Narrow SKU requirements – lower inventory space and dollar investment required to support the product line
- A solution for a wide variety of applications – garages, basements, laundry rooms, offices, pantries, closets

# Where can you install Trusscore SlatWall? Nearly anywhere.

Trusscore SlatWall is designed to help your customers instantly organize any room in their home, office, or workspace as soon as it's installed.

- Garages
- Home Gyms
- Corporate Offices
- Barns & Workshops
- Basements
- Laundry & Storage Areas
- Retail Stores

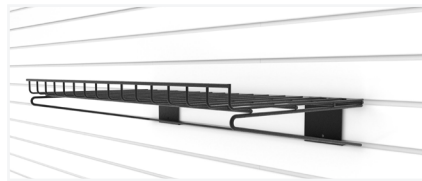

## SlatWall Accessories

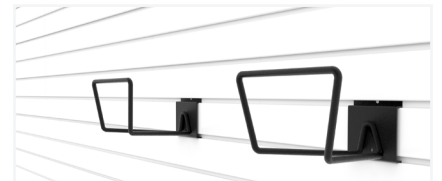

No on-the-wall organization system is complete without hooks, baskets, bins, or shelves to store all items on or in. Trusscore offers several SlatWall hardware options that snap into place and can be easily moved around as storage needs change.

18" Basket | CRO.P18

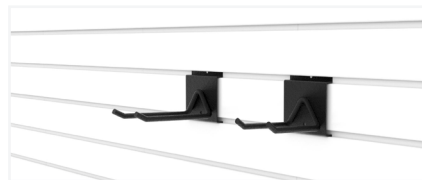

24" Shelf | CRO.T24

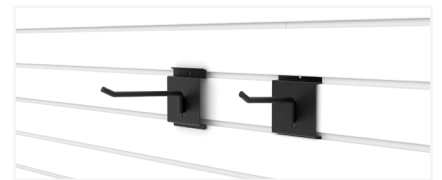

Hose Hook | CRO.H

Bike Hook | CRO.V

4" and 6" Double Hook  
CRO.D4 | CRO.D6

4" and 6" Simple Hook  
CRO.S4 | CRO.S6

Plus, the non-proprietary design of Trusscore SlatWall means customers aren't locked in to using our hooks, holders, baskets, and shelves — our panels are compatible with any standard 3" slatwall accessories.
